

# Thin-Crete™ STAMPED CONCRETE OVERLAY SYSTEM

## Thin-Crete™ offers affordability

Thin-Crete™ is an affordable decorative alternative to concrete replacement that is revolutionizing the construction and renovation/remodeling industry.

Thin-Crete™ is ideal for interior and exterior applications in both residential and commercial environments such as pool decks, patios, walkways, entryways, foyers, restaurant floors, mall entrances, hotel lobbies and grounds.

Thin-Crete™ eliminates costly concrete replacement by giving you the look of natural stone, slate and granite over your existing concrete surface in a fraction of installation time and cost of natural materials.

## Thin-Crete™ offers flexibility of design

Thin-Crete™ is available in an unlimited palette of natural colors that compliment and blend any project theme or design specifications.

## STAMPED CONCRETE OVERLAY SYSTEM

Consider the family of INCRETE Systems products for your next architectural concrete application:

### INCRETE

Increte is a stamped concrete system that turns plain concrete into a very rich and decorative textured surface. Increte is new concrete which is colored, then imprinted with a textured pattern to produce an uncommonly realistic and natural looking stone, slate or brick appearance. Insensitive to temperature extremes, Increte may be successfully applied indoors and out.

### SPRAY-DECK & TEXTURE-CRETE

Spray-Deck & Texture-Crete overlay systems provide a durable, easy to maintain surface for an endless variety of indoor and outdoor applications. INCRETE's overlay systems are slip-resistant and virtually maintenance free. Spray-Deck and Texture-Crete are perfect for pool decks, driveways and patios.

### STONE-CRETE

Stone-Crete, the patented, cast-in-place, deep relief architectural wall system that replicates the look of natural stone. Stone-Crete uses an exclusive coloring process that delivers unmatched realism and durability. Stone-Crete is ideal for bridges, highway projects, foundation walls, sound barrier walls, and subdivision.

### STAIN-CRETE

Stain-Crete is a permanent stain that creates beautiful color tones in existing concrete. Stain-Crete reacts chemically with cured concrete to provide a distinctive, permanent color with a rich variegated finish that will not peel, crack, chip or fade. Stain-Crete is ideal for exterior and interior uses.

The Trained Contractor Certificate indicates certain employees of the company have been instructed in the proper application of INCRETE Systems Products and have received copies of the INCRETE Systems Application Instructions and Specifications. The trained Contractor Program is not an apprenticeship. Each trained contractor is an independent company and bears responsibility for its own workmanship. INCRETE Systems, Incorporated assumes no liability for the workmanship of a trained contractor.

# Thin-Crete™

STAMPED CONCRETE OVERLAY SYSTEM

**Thin-Crete™** is a stamped concrete overlay system designed as a cover-up for existing concrete surfaces.

**Thin-Crete™** duplicates the look of natural stone, slate and granite in realistic deep relief patterns over existing concrete surfaces eliminating the hassle and expense of concrete replacement.

Applied at 1/4 to 3/8 of an inch over existing slabs, **Thin-Crete™** is actually stronger and more durable than concrete making it the perfect surface for residential and commercial use in applications ranging from pool decks, patios and driveways to hotel lobbies, shopping centers and retail stores.

Whatever your application, **Thin-Crete™** can be colored and textured to match any design theme or specification giving you an incredibly versatile flooring system that's as durable as it is beautiful. Transform your existing concrete into a beautiful and elegant surface with **Thin-Crete™**
